Scope

§ 3133.6 Limitation Order L-240—(a)
The purpose of this order This order

does two things: First, it limits the tonnage of print paper which may be used by a publisher in printing a newspaper. This is called his "consumption quota" Second, it limits the tonnage of print paper which may be ordered or accepted by a newspaper publisher. This is called his "delivery quota" A publisher's consumption quota is on a quarterly basis and his delivery quota is on a monthly basis.

Definitions and Explanations

(b) Newspaper. "Newspaper" means any publication generally recognized as a newspaper in the newspaper industry, regardless of the frequency of issuance. The term includes all supplements, inserts and other printed matter physically incorporated into a newspaper or delivered together with it.

Where two or more newspapers are published by the same publisher, whether in the same city or in different cities, each newspaper shall operate under a separate consumption quota and a separate delivery quota. In computing his consumption quota a publisher must make separate calculations for morning, evening and Sunday editions, but these figures must be consolidated into a single consumption quota for each newspaper, in accordance with the instructions contained in paragraph (k)

However, morning, evening, Sunday and other editions of the same newspaper shall operate under a single consumption quota and a single delivery quota.

In determining whether a publisher issues separate newspapers or separate

editions of the same newspaper, the number and form of the reports filed by the publisher with the Audit Bureau of Circulations in 1941 will be controlling, in the absence of special circumstances. Thus, if a publisher in 1941 filed consolidated statements with the Audit Bureau of Circulations covering morning, evening and Sunday issues, even if these issues had different names, different formats and different staffs, they will ordinarily be considered as a single newspaper for the purposes of this order. If a publisher in 1941 filed separate statements with the Audit Bureau of Circulations covering his morning, evening, Sunday and other publications, they will ordinarily be considered as separate newspapers for the purposes of this order.

The term "newspaper" as used in this order, does not include "servicemen's" "overseas" "pony" or other condensed editions of newspapers which (1) are printed by the Army or Navy outside the continental United States on print paper procured by the Army or Navy, and (2) are distributed exclusively to United States Armed Forces personnel outside the continental United States. A publisher need not deduct from his consumption quota the print paper used in such editions, even though he supplies to the Army or Navy the print paper, the editorial material, and the mats or plates.

If a publisher is uncertain as to whether or not his publication is a newspaper as defined in this order, he may ask the War Production Board for an official determination. The War Production Board may also make this determination upon its own motion. Such a determination, issued to the publisher in the name of the Recording Secretary of the War Production Board, shall be conclusive for the purposes of this order, unless revoked or modified by the same authority.

(c) *Camp papers and free distribution publications.* Army or Navy camp, post, station or unit "newspapers" or news sheets generally are not recognized as newspapers in the newspaper industry. They are covered by Order L-241 (commercial printing) Shopping guides, want ad periodicals and publications in newspaper format distributed free or at nominal cost also are not recognized as newspapers within the meaning of this order and are governed by Order L-241, Schedule II. If a publisher issued a free distribution newspaper in 1941, his consumption quota shall be determined in accordance with Schedule II to Order L-241 and that order shall govern even if the circulation of the publication has subsequently been changed in whole or in part to a net paid basis.

(d) *Publisher.* "Publisher" means a person who publishes a newspaper, including an individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(e) *Print paper.* "Print paper" means any grade, quality, type or basis weight of paper used in publishing a

newspaper. The term includes paper reclaimed wholly or partly from printed or unprinted waste, as well as paper made entirely from virgin fiber. It also includes roll wrappers, newsprint used as wrappers, identification sheets and labels for newspapers, and production waste, whether or not this waste is subsequently salvaged for other uses.

(f) *Use.* All production waste shall be included in the tonnage of print paper "used" in printing a newspaper. Transit damage shall not be included in a publisher's "use" of print paper. A roll of print paper is considered "used" when it is first opened and placed in production.

(g) *Net paid circulation.* "Net paid circulation" means the number of copies of a newspaper which have been sold (exclusive of bulk sales), as audited by the Audit Bureau of Circulations or (in the case of newspapers which are not members of the Audit Bureau of Circulations) as verified in accordance with the standards of the Audit Bureau of Circulations of January 1, 1942.

(h) *Inventory.* "Inventory" means all the print paper which is owned by a publisher or is available for his use. It includes the print paper which he has on hand, in storage, and in transit, and paper held for his use by a paper merchant, warehouseman or other person, regardless of its physical location. However, it does not include print paper shipped by water and held in warehouse by a paper manufacturer or merchant as part of the inventory of the manufacturer or merchant; such paper does not become part of a publisher's inventory until it is delivered to him.

(i) *Transfer of quotas—(1) Quotas established by different orders.* Quotas provided by one War Production Board order may not be used for the purposes set forth in any other order. Thus, for example, a publisher may not use for the printing of a newspaper any part of a consumption quota established under Orders L-241 (commercial printing) L-244 (magazines) or L-245 (books) and he may not permit any part of his consumption quota established under this order to be used for commercial printing, magazines or books. If a newspaper publisher also conducts a job printing business, he must keep these two operations separate for quota purposes. The amount of print paper which he is permitted to consume and the amount which he is permitted to order or accept for the publication of his newspaper is limited by this order. The amount of print paper which he is permitted to consume and the amount which he is permitted to accept for his commercial printing business is limited by Order L-241.

(2) *Transfer of quotas to different persons.* The rules governing the assignability of quotas are set forth in Priorities Regulation 7a.

Consumption Quota

(j) *Allowable consumption.* In the first quarter of 1944, and in each calendar quarter after that, no publisher may use or cause to be used, in the publica-

tion of a newspaper, print paper in excess of:

(1) His quarterly consumption quota, which shall be computed in accordance with the instructions set forth in paragraph (k) or (m) plus

(2) Any less-than-quota savings carried over from previous calendar quarters, as provided in paragraph (l) plus

(3) Ex-quota tonnage, if any, which may have been granted on appeal for consumption in that quarter.

(k) *Computation of consumption quota—(1) Base tonnages.* Ascertain, separately, the tonnage of print paper comprising the net paid circulation of morning, evening, Sunday or other issues of the newspaper in the corresponding quarter of 1941. Add 3 per cent to each figure. (This 3 per cent is an arbitrary allowance to compensate for production waste and should be added whether the actual production waste in 1941 was greater or less than 3 per cent). These are the "base tonnages" for morning, evening, Sunday or other issues of the newspaper, which shall be adjusted in accordance with instructions 2, 3, and 4.

(2) *Circulation increase.* Ascertain, separately, the percentage increase or decrease in average net paid circulation of morning, evening, Sunday or other issues of the newspaper in the calendar year 1942 as compared with the calendar year 1941. (The average net paid circulation for each year shall be determined by adding together the average net paid circulation for each of the four quarters of the year and dividing by four)

(3) *Tonnage equivalent of circulation increase.* Apply, separately, the respective percentages of circulation increase or decrease determined under instruction number 2 to the respective base tonnages determined under instruction number 1 for morning, evening, Sunday or other issues of the newspaper.

(4) *Adjustment of base tonnages.* Adjust the respective base tonnages determined under instruction number 1 by adding or subtracting the number of tons represented by the percentage circulation gain or loss determined under instruction number 3.

(5) *Total adjusted base tonnage.* Total the respective base tonnages for morning, evening, Sunday or other issues of the newspaper determined under instruction number 1. Total the respective adjusted base tonnages for morning, evening, Sunday, or other issues of the newspaper determined under instruction number 4. The larger of these two totals is the publisher's "total adjusted base tonnage" from which the required reductions shall be applied.

(6) *Sliding scale of reductions.* Reduce the total adjusted base tonnage by the following sliding scale of percentage cuts:

(i) Deduct 4% of the amount over 25 tons but not over 125 tons.

(ii) Deduct 8% of the amount over 125 tons but not over 250 tons.

(iii) Deduct 12% of the amount over 250 tons but not over 500 tons.

(iv) Deduct 20% of the amount over 500 tons but not over 1000 tons.

(v) Deduct 24% of the amount over 1000 tons.

(7) *Consumption quota.* The balance remaining after subtraction of the above reductions from the total adjusted base tonnage determined under instruction number 5 is the publisher's consumption quota for the quarter.

(8) *Adjustment for print paper lighter than 32-pound basis weight.* Beginning July 1, 1944, if a publisher orders print paper lighter than 32-pound basis weight, his consumption quota for the current calendar quarter shall be reduced proportionately as follows: First, determine the percentage by which 32-pound paper exceeds such lighter paper in weight. Second, multiply the tonnage of lighter paper so ordered by this percentage. Third, subtract the result from the publisher's consumption quota. For example, if a publisher has a consumption quota of 200 tons and orders 100 tons of 30-pound basis weight paper, his consumption quota shall be reduced by 6⅔ tons, since 32-pound paper is 6⅔% heavier than 30-pound paper.

(9) *Borrowing for 14th Sunday.* Inasmuch as there are 14 Sundays in the fourth quarter of 1944 and only 12 in the first quarter of 1945 the publisher of a Sunday newspaper may deduct the tonnage of print paper consumed in his December 31, 1944 issue from his first quarter 1945 consumption quota rather than his fourth quarter 1944 consumption quota.

(1) *Carry-over* If a publisher uses less print paper than he is permitted to use in the fourth quarter of 1943, or in any calendar quarter after that, he may add this tonnage to his consumption quota but not to his delivery quota, in any succeeding quarter.

(m) *Consumption quotas for certain types of newspapers.* Excepted from the provisions of paragraph (k) are certain types of newspapers described in this paragraph (m) whose consumption quotas shall be computed as follows:

(1) *Special types of newspapers.* Any newspaper containing the equivalent of 8 standard-size pages or less which is authorized to be admitted to the mails as second-class matter under the provisions of section 521 of the Postal Laws and Regulations of 1940 (Title 39, U. S. C., sec. 229) pertaining to the publications of benevolent, fraternal, trades-union, professional, literary, historical, and scientific organizations and societies shall have a consumption quota of print paper in any calendar quarter equal to either:

(i) Its quarterly consumption of print paper in any one of the first three calendar quarters of 1944; or

(ii) Its consumption of print paper in the corresponding calendar quarter of 1943. If the publisher selects this latter method in any calendar quarter, he may increase his consumption quota in that quarter by that percentage by which the average number of copies per issue in the third quarter of 1944 exceeds the average number of copies per issue in the corresponding calendar quarter of 1943. For example, if a newspaper's consumption of print paper in the first quarter of 1943 was 5 tons with an average press-run in that quarter of 5,000 copies per issue, and its average press-run in the third quarter of 1944 was 6,250 copies per issue, his

consumption quota for the first calendar quarter of 1945 is 6¼ tons.

(2) *Small newspapers.* Any person may use or cause to be used in the publication of a newspaper during any calendar quarter a tonnage of print paper equal to 1¼ tons multiplied by the number of days per week on which the newspaper is published. For example, any person may use 1¼ tons of print paper per calendar quarter for the publication of a weekly newspaper, 2½ tons per calendar quarter for the publication of a semi-weekly newspaper, etc. It makes no difference whether he used that much paper, or any paper, in the publication of a newspaper during any previous period.

(3) *Other newspapers using less than 25 tons per quarter* If, prior to October 1, 1944, a publisher used less than 25 tons of print paper per calendar quarter for civilian readers (whether or not he used additional paper for military readers) his total quarterly consumption quota for all types of readers shall be computed as follows:

(i) Ascertain the total number of copies of all issues printed in each of the seven calendar quarters between January 1, 1943 and September 30, 1944.

(ii) Ascertain the average number of pages per issue printed in each of the seven calendar quarters between January 1, 1943 and September 30, 1944.

(iii) Multiply the highest quarterly figure determined under subdivision (i) by the highest quarterly figure determined under subdivision (ii). The weight of paper required to produce this number of pages is the publisher's quarterly consumption quota; *Provided, however* That if this figure is in excess of 25 tons, the publisher shall be limited to 25 tons per quarter plus the tonnage in excess of 25 tons which he used for military circulation in the third quarter of 1944.

(n) *Allotment to Army and Navy.* (1) The War Production Board may from time to time allot to the Army and the Navy a specified tonnage of paper to be consumed in printing "servicemen's" "overseas" "pony" or other condensed editions of newspapers which will be furnished to United States Armed Forces personnel overseas.

(2) From this allotment the Army and the Navy, under a delegation of authority from the War Production Board, may grant to individual publishers the right to add to their consumption quotas the tonnage of paper consumed in such editions acquired by the Army and the Navy for distribution outside the continental limits of the United States. This allotment does not cover purchases of newspapers by military exchanges or service departments as defined in Priorities Regulation 17 for distribution within the continental limits of the United States. All newspapers sold to the military shall be charged against the publisher's consumption quota unless the publisher has received a specific grant from the Army or the Navy pursuant to this paragraph.

Delivery Quota

(o) *Computation of delivery quota.* In August 1944, and in each calendar month after that, no publisher may order

or accept delivery of print paper in excess of his monthly delivery quota, which shall be computed in accordance with the following instructions:

(1) *Monthly base.* Total the publisher's consumption quotas for the first and second quarters of 1945. Add the excess quota tonnage, if any, which may have been granted on appeal for use in those quarters (do not add any less-than-quota under-consumption in any preceding quarters) Divide by 6.

(2) *Inventory ceiling.* The above amount shall be reduced accordingly if a publisher's inventory is, or by virtue of such order or acceptance will become, at the end of the current calendar year, greater than: (i) 40 days' supply for publishers in the states named in List A, (ii) 65 days' supply for publishers in the states named in List B, or (iii) 60 tons for publishers who would be limited to a smaller amount by subdivision (i) or (ii) above.

(3) *Exclusions.* In computing the maximum tonnage which a publisher may have in his inventory, he shall exclude any less-than-quota savings under his consumption quota carried over from previous quarters. He shall also exclude print paper which he has received by Great Lakes or coastal water-borne shipments; provided on May 1 of any calendar year he shall have on hand or available for use not more than (i) a 40 days' supply if he is located in one of the states named on List A above, or (ii) more than a 65 days' supply if he is located in one of the states named in List B above and provided further that no publisher may order or accept delivery of a total amount of print paper by water, rail or otherwise in any calendar year (including both the open and closed navigation seasons) in excess of his delivery quota for that calendar year.

(4) *Computation of rate of consumption.* The number of days' supply shall be computed at the average daily rate of allowable consumption for the first six months of 1944.

(5) *Fractional carloads.* If a publisher's delivery quota for any month is less than one carload, he may nevertheless order and accept, in that month, up to one full carload. If a publisher's de-

livery quota for any month is a whole number of carloads plus a fraction of another carload, the fraction may be added to his delivery quota for any succeeding month.

(6) *Transit damage.* If print paper in inventory is destroyed or damaged to such an extent that it becomes unusable in publishing his newspaper, whether this occurs while the paper is in transit or after it has reached its destination, the publisher may increase his delivery quota (but not his consumption quota) in the same or any subsequent month by an amount sufficient to replace such paper. It is immaterial whether or not the publisher is reimbursed for the destroyed or damaged paper by the shipper, the carrier, or an insurance company. It is also immaterial whether or not the publisher salvages all or part of the damaged paper for use other than in publishing his newspaper.

(7) *Report on transit damage.* Any publisher who increases his delivery quota to replace destroyed or damaged print paper in accordance with subparagraph 6 above shall, within 15 days after placing the order for such replacement, file a letter with the War Production Board stating the number of tons comprising the publisher's delivery quota for that month, the number of tons destroyed or damaged, the manner in which such print paper was rendered unfit for use in publishing his newspaper, and the number of tons ordered in excess of his delivery quota. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(p) *Exceptions.* Permission to order or accept delivery of print paper in excess of the tonnage allowed under paragraph (o) may be granted by the War Production Board upon a written request for specific authorization stating the number of tons and the number of days' supply of print paper which the publisher has in inventory, the number of tons comprising his delivery quota, the number of additional tons he desires to order and accept, and the reasons why the denial of the request would create undue hardship.

(q) *Certification.* On and after December 24, 1943, each order by a publisher for delivery of print paper shall contain substantially the following certification, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order, and to receive the item(s) ordered for the purpose for which ordered.

No person may deliver print paper to a publisher except upon a delivery order which bears the above certification.

(r) *Copies of orders.* On and after March 1, 1944, the publisher of every newspaper which consumes 25 tons of

print paper or more in any calendar quarter shall file with the War Production Board copies of all orders for the delivery of print paper placed by him or for his account. Such copies must be mailed within three days after the orders are placed. On or before March 15, 1944, every such publisher shall mail to the War Production Board copies of all orders for the delivery of print paper placed by him or for his account since January 1, 1944. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(s) *Intra-company transfers.* The foregoing restrictions apply not only to deliveries from one person to another, including affiliates and subsidiaries, but also to deliveries from one branch, division, or section of a single enterprise to another branch, division, or section of the same or any other enterprise under common ownership or control.

Miscellaneous Provisions

(t) *Loans of print paper.* Any loan of print paper made by a publisher shall be reported to the War Production Board by letter within 15 days after the date of the loan. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(u) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(v) *Appeals.* Any appeal from the provisions of this order shall be made in accordance with Supplement 1 to the order. Regardless of the provisions of Priorities Regulation 16 no statement with respect to manpower information on Form WPB-3820 (or letter explaining why that form is not filed) need accompany any appeal.

(w) *Communications to the War Production Board.* All reports required to be filed hereunder, requests for specific authorization, appeals and other communications concerning this order shall be addressed to: War Production Board, Printing and Publishing Division, Washington 25, D. C. Ref: L-240.

(x) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

INTERPRETATION 4

TRANSIT DAMAGE

Paragraph (f) of Order L-240 states in part: "Transit damage shall not be included in a publisher's 'use' of print paper." This provision which was inserted in the order on December 24, 1943, merely explained, and did not change, the existing rule.

At all times since the issuance of Order L-240 on December 31, 1942, a publisher has been obliged to charge against his consumption quota only the print paper which was actually "used" in publishing his newspaper; print paper which was destroyed or damaged in transit need not be charged against the publisher's consumption quota to the extent that such print paper was rendered unusable in the publication of his newspaper. However, at all times since the issuance of Order L-240 on December 31, 1942, production waste has been included in the tonnage of print paper which is "used" in publishing a newspaper. PART 3158—ALKANOLAMINES

[Allocation Order M-275, Revocation]

Alkanolamines are subject to allocation under General Allocation Order M-300 as Appendix A materials, subject to Schedule 83 issued simultaneously with this revocation.

Regular and interim allocations heretofore issued under Order M-275 are effective under the schedule, but are limited in duration as if originally issued under the schedule. Pending applications need not be refilled.

PART 3274—MACHINE TOOLS AND INDUSTRIAL SPECIALTIES

[General Preference Order E-1-b, as
Amended Jan. 2, 1945]

PRODUCTION AND DELIVERY OF MACHINE TOOLS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of machine tools and components used in producing machine tools for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3274.1 General Preference Order E-1-b—(a) Definitions. For the purposes of this order:

(1) "Machine tool" means any new, non-portable, power driven, metal-working machine listed on the attached Exhibit A except light power driven tools subject to Limitation Order L-237.

The word "machine" means a machine tool. It includes all fixtures, equipment and tooling covered by the original purchase order which are required to be delivered with the machine to make it usable in production for the purposes intended. It does not include replacements, spare parts or equipment, or extra tooling.

(2) "Producer" means any person engaged in producing machine tools.

(3) "Service purchasers" means those whose purchase orders for machines call for delivery to a supply arm or bureau of the Army or Navy, to the United States Maritime Commission, to one of their prime contractors, or to a subcontractor of such a prime contractor. However, no such purchaser shall be considered a service purchaser unless his preference rating certificate or endorsement accompanying his purchase order shows that the preference rating being applied to the purchase was assigned on Form WPB-542, CMPL-224, or GA-1456, or that the rating was assigned and certified in accordance with paragraph (e) (3) of War Production Board Directive 31.

(4) "Foreign purchasers" means those whose purchase orders show that the machine is to be delivered to or for the account of a foreign country, other than Canada, or a subdivision, agency, or instrumentality thereof.

(5) "Other purchasers" means all purchasers other than service purchasers and foreign purchasers whether or not a preference rating has been assigned to their purchase orders. Other purchasers include all Canadian purchasers except those who are service purchasers by reason of their purchasing machines for use on direct United States prime contracts or subcontracts.

(6) "Size" includes all of those dimensions or variations of a particular type of

machine which can be used interchangeably for production purposes. Size classification shall be that used by each producer on June 22, 1944 unless he is hereafter authorized to use a different classification. Producers may apply for such permission by writing to the Tools Division, War Production Board, Ref. E-1-b.

(b) *Delivery of machine tools until September 1, 1944.* Until September 1, 1944 each producer shall maintain his production and delivery schedules as established on June 22, 1944. An exception to this is any change in schedules required by a diversion or by any other specific direction of the War Production Board issued after June 22, 1944.

(c) *Allocation of production to service purchasers and to foreign purchasers and other purchasers.* (1) Starting September 1, 1944, each producer shall schedule his deliveries for each calendar month so as to deliver 75 percent of his production of each size in that month to service purchasers and 25 percent of each size to foreign purchasers and other purchasers combined.

(2) To the extent that a producer has not received orders from service purchasers for 75 percent of his production of a given size by sixty days prior to the first of the month being scheduled, he may schedule more than 25 percent for delivery to foreign purchasers and other purchasers combined. To the extent that he has not received orders from foreign and other purchasers combined for 25 percent he may schedule more than 75 percent for delivery to service purchasers.

(d) *Distribution of 75 percent of production among service purchasers.* Each producer shall schedule deliveries to service purchasers as follows:

(1) Service purchasers are subdivided into seven groups, consisting of the following and their respective prime contractors and subcontractors: Bureau of Ships (Navy) Bureau of Ordnance (Navy) Ordnance Department (Army) Air Forces, Miscellaneous Branches and Bureaus, the Maritime Commission, and the Signal Corps. The fourth group, designated "Air Forces," includes the Army Air Forces and the Navy Bureau of Aeronautics and their respective prime contractors and subcontractors. The fifth group, designated "Miscellaneous Branches and Bureaus," includes the Quartermaster Corps, the Corps of Engineers, the Office of The Surgeon General (Army Medical Department), the Chemical Warfare Service, the Transportation Corps (Transportation Service) the Bureau of Yards and Docks, and the Marine Corps, together with any other corps, department, bureau or service of the Army or Navy not heretofore designated as a separate group, and their respective prime contractors and subcontractors.

(2) (i) Each producer shall figure the number of orders on his books for each size from each of the seven service purchaser groups as of sixty days prior to the first day of the month being scheduled or, at the producer's option, the nearest date within ten days thereof on which he may have compiled his record of orders. Only orders which require delivery in the month being scheduled or

in a previous month shall be counted. This figure shall be termed the net backlog of each service purchaser group. No order shall be counted unless it is a firm order accompanied by specifications or other description of the machine in sufficient detail to enable the producer to place the machine in his production schedule and by the information required by paragraph (f) of this order.

(ii) He shall then distribute the number of machines of this size allocated to all service purchasers for the month being scheduled among each of the seven service purchaser groups according to each group's quota. The quota of this size for each service group shall be the ratio of:

(a) Net backlog in this size of the service group to

(b) The total of all net backlogs in such size of all the service groups,

multiplied by the total number of machines of this size allocated for the month being scheduled to all service purchasers. An example of the calculation required by this paragraph is attached, marked "Illustration of paragraph (d) (2) "

(iii) The quota shall be determined monthly for the third ensuing month. For example: On the 1st of July quotas shall be determined for September, on the first of August quotas shall be determined for October, and on the first of September quotas shall be determined for November, etc.

(3) Commencing with the month of September 1944 and each month thereafter, a producer shall deliver to each service group the number of machines of that size equal to its quota for that month. However, no producer shall schedule delivery of any machine earlier than the date on which the purchaser requires delivery unless all required delivery dates on other orders are being met.

(e) *Treatment of fractions.* Where the number of machines which results from any computation required by this order contains a fraction of more than one-half, the fraction shall be counted as a whole machine. A fraction under one-half shall be disregarded, except that where the computation results in a fraction only (less than one whole machine) for any one month, and such fraction is less than one-half, it shall be counted in computing the next month's quota. Where each of the computations of two or more different quotas for the same month shows a fraction of one-half, and there is only one remaining machine to which such fractions can apply, such machine shall be allotted to the group having the largest quota, and the other fractions of one-half shall be disregarded for that month, but shall be counted in computing the other quota or quotas for the next month.

(f) *Assignment and use of ratings to obtain machine tools.* (1) No person shall apply or extend any preference rating to obtain any machine tool which has a retail sales price of more than \$500 except those assigned by or in connection with Form FEA-419, WPB-541, WPB-542 or WPB-1319 or those assigned

and certified in accordance with paragraph (e) (3) of War Production Board Directive 31. Consequently, any person applying for a rating to obtain any machine tool which has a retail sales price of more than \$500 should use one of these forms. If the machine tool has a retail sales price of \$500 or less, ratings may be applied or extended even though assigned on other forms or in accordance with other WPB orders and regulations, for example, P-43, P-68, CMP Regulation 5, etc. Unless otherwise directed by the War Production Board, producers shall give effect to all ratings applied or extended to them prior to October 19, 1944. However, they may not hereafter accept any new ratings for machine tools unless they have been assigned in accordance with this paragraph.

It will be the policy of the War Production Board not to give any rating for a machine tool which has a retail sales price of more than \$500 by issuing an FEA-419, a WPB-541, WPB-542 or WPB-1319 unless the machine tool is for military purposes, or unless it is urgently needed for purposes related to the war effort and the purchaser has been unable to obtain a promise of an adequate delivery date without a preference rating. The War Production Board policy with respect to the assignment of ratings for equipment needed for resumption or expansion of civilian production is stated in paragraph (g) (1) of Priorities Regulation 24. No FEA-419, WPB-541 or WPB-1319 will be issued for a machine tool having a retail sales price of more than \$500 unless the purchaser has attempted to place an unrated purchase order for the machine tool and been unable to obtain an adequate delivery promise. If the retail sales price of the machine tool is more than \$500, in applying for a rating on either of these forms the purchaser must give the name of the supplier with whom the unrated purchase order was placed, the number of his unrated purchase order, and the delivery date, if any, which was promised on it.

(2) In applying or extending a preference rating to an order for a machine tool, the purchaser must supply the following information in addition to his regular endorsement or certification applying the rating:

(i) The form of preference rating certificate or the number of the order or regulation by which the rating was assigned. This information is particularly important in view of the restrictions of paragraph (f) (1)

(ii) The urgency standing assigned to the delivery of the machine, if any.

(iii) The required delivery date of the machine.

(iv) A statement as to whether the purchaser is a service purchaser, a foreign purchaser, or other purchaser, and if a foreign purchaser the foreign country to which the machine is to be delivered.

(v) In the case of service purchasers the supply arm or bureau of the Army or Navy, or the Maritime Commission which placed the prime or subcontract

on which the machine being purchased is to be used, the number of the prime contract, the name of the prime contractor, and a photostatic copy (or another copy, accompanied by his signed statement that it is a true copy) of the WPB-542 (PD-3A) certificate. Reproduction of any WPB-542 certificate for the foregoing purposes is hereby permitted. Where the rating was assigned and certified in accordance with paragraph (e) (3) of War Production Board Directive 31, no copy of any preference rating certificate shall be required.

(g) *Operation of Numerical Master Preference List.* Numerical Master Preference List, Revision No. 6, designated "Restricted," has been supplied to machine tool builders (Exhibit B to this order). This list determines the sequence of deliveries as between service purchasers as follows:

(1) The sequence of deliveries among each group of service purchasers within its respective quota shall be determined each month without regard to preference ratings.

(2) Deliveries to service purchasers who are either on the list or are subcontractors of persons on the list shall take precedence over service purchasers who are not on the list.

(3) As between deliveries having conflicting required delivery dates and to be made to service purchasers on the list, priority shall be given to the service purchaser with the higher urgency standing in that service group. The highest urgency standing is No. 1.

(4) The sequence of conflicting deliveries to service purchasers not on the list shall be determined by the respective dates on which the producer receives the preference rating together with the information called for by paragraph (f).

(5) Delivery to a subcontractor not specifically named on the list shall take the urgency standing of his prime contractor. However, no subcontractor may use the urgency standing of his prime contractor unless it has been endorsed on the instrument assigning the preference rating by the supply arm or bureau concerned.

(6) If the urgency standing certified to by the purchaser differs from the urgency standing shown for the particular contractor in question on the Numerical Master Preference List, Revision No. 6, the latter shall govern.

(h) *Additions to list.* Changes may be made in the Numerical Master Preference List from time to time by the War Production Board. Where an urgency standing between existing urgency standings is assigned, the new urgency standing will consist of a number including a decimal. Such an urgency standing will take a position in the sequence of deliveries as indicated by the following example: Urgency Standard 792.1 will be scheduled after 792 and before 793.

(i) *Sequence of deliveries among foreign purchasers and other purchasers.* The sequence of deliveries among foreign purchasers and other purchasers within the proportion of production allocated to

them shall be determined in accordance with the provisions of § 944.7 of Priorities Regulation No. 1.

(j) *"Frozen" period.* Unless the War Production Board specifically orders otherwise, no preference rating or urgency standing which may be received by a producer shall operate to postpone or in any way affect any delivery under a purchase order, whether rated or unrated, which is scheduled for delivery within sixty days of receipt of such preference rating or urgency standing.

(k) *Replacement parts.* Nothing in this order shall be construed to prohibit the delivery by any producer of repair and replacement parts for machine tools in accordance with applicable regulations and orders of the War Production Board concerning maintenance, repair and replacement items.

(l) *Changes in schedules.* Notwithstanding any other provision of this order, the War Production Board may direct or change any schedule of production or delivery of machines, allocate any order for machines to any other producer, divert or otherwise direct the delivery of any machine to any other person.

(m) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. This appeal should be filed with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(o) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(p) *Communications.* All reports required to be filed hereunder, and all

appeals and other communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Tools Division, Washington 25, D. C., Ref. E-1-b.

Issued this 2d day of January 1945.

[Limitation Order L-270, as Amended Jan. 2, 1945]

AUTOMOTIVE MAINTENANCE EQUIPMENT

§ 3292.56 *Limitation Order L-270*—

(a) *What the order does.* This order explains what is meant by "automotive maintenance equipment", how much and what kinds of such equipment may be made, and how it may be sold.

(b) *Definitions.* For the purposes of this order:

(1) "Producer" means any person who manufactures any automotive maintenance equipment, whether for his own account or for the account of others.

(2) "Manufacture" means to fabricate or assemble any item of automotive maintenance equipment.

(3) "Automotive maintenance equipment" means the items listed in Schedules A, B, C or D to this order.

(4) "Automotive vehicles" means passenger automobiles, light, medium and heavy motor trucks, truck tractors, truck trailers, passenger carriers and off-the-highway motor vehicles.

(7) "Military order" means any contract or purchase order calling for delivery to or for the account of the Army or Navy of the United States, United States Maritime Commission or the War Shipping Administration.

Provisions Relating to Production

(c) *General policy.* In processing applications for priorities assistance on Form CMP-4B, the War Production Board will be guided by the policy that the total production will not exceed the approved WPB program for the products to which this order applies and that the production in any one plant, or labor requirements therefor, will not interfere with war production in that plant or in any other plant located in the same area.

(d) *Restrictions on production of individual items*—(1) *No production of Schedule A items.* Except to fill military orders, no producer shall manufacture any item listed in Schedule A.

(2) *Limitation on production of Schedule B items.* Except to fill military orders, no producer shall manufacture in any calendar quarter any item listed in Schedule B in excess of fifty (50) percent of the number of the like item manufactured by him in the corresponding calendar quarter in 1941.

(i) *Provision for minimum factory runs.* In the event that the limitation imposed by this paragraph (d) (2) should result in restricting production to less than his minimum practical factory run of any item listed in Schedule B, a producer may, notwithstanding the provisions of paragraph (d) (2), manufacture a minimum practical factory run; Provided, That the total number of

any such item manufactured by him in any two consecutive calendar quarters shall not exceed fifty (50) percent of the total number of the like item manufactured by him in the two corresponding calendar quarters of 1941.

(3) *Limitation on production of Schedule C items.* Except to fill military orders, no producer shall manufacture in any calendar quarter any item listed in Schedule C in excess of one hundred (100) percent of the number of the like item manufactured by him in the corresponding calendar quarter of 1941.

(4) *Limitation on production of Schedule D items.* Except to fill military orders, no producer shall manufacture in any calendar quarter any item listed in Schedule D in excess of one hundred (100) percent of the number of the like item manufactured by him in the corresponding calendar quarter of 1941, unless a quarterly quota in excess of one hundred (100) percent of the corresponding quarter of 1941 production has been assigned to the producer under the following procedure:

(i) *Special quotas on Schedule D items.* A request for assignment of a special quota for production of any item listed in Schedule D, in excess of one hundred (100) percent of the number of the like item manufactured by him in the corresponding quarter of 1941, may be made by a producer who can increase production within the limitations of paragraph (c)

Such a producer may file an application in writing with the Automotive Division of the War Production Board, Washington 25, D. C., Ref: L-270, for permission to increase production at such plant by giving complete explanation of the circumstances justifying such increase. Thereupon the War Production Board may authorize an increase in the production of the item at such plant in such quantities and upon such conditions as it shall find requisite in the public interest. Such authority will be issued either in the form of individual letters or by published directions supplemental to this order.

The War Production Board may likewise direct an increase in the production of items on Schedule D in conformity with paragraph (c), in such quantities and upon such conditions as it shall find requisite in the public interest.

(e) *Limitation on production of repair parts.* Except to fill military orders, no producers shall manufacture in any calendar quarter a dollar volume of repair parts for automotive maintenance equipment in excess of ten (10) percent of the total dollar volume of automotive maintenance equipment manufactured by him in the corresponding calendar quarter of 1941.

Provisions Relating to Critical Materials

(f) *Use of steel.*¹ No producer shall use any steel or other critical materials in the manufacture of automotive maintenance equipment where the use of less

¹ See latest quarterly copy of publication entitled, *Material Substitution and Supply List*, Conservation Division, War Production Board.

critical materials is practicable, and when so used such steel or other critical materials shall be reduced to the minimum quantity and grade necessary for the proper operation of the automotive maintenance equipment.

(g) *Use of copper*¹ No producer shall use any copper products or copper base alloy products in the manufacture of automotive maintenance equipment other than in the following: (i) Conductors of electrical current, (ii) bearings, bushings, thrust washers and similar parts which require oil, grease or water lubrication, (iii) valve seats, tubes, and similar parts where condensation or corrosion make substitutions of less critical materials impracticable: *Provided*, That any copper products or copper base alloy products so used shall be reduced to the minimum practical gauge, size and grade necessary for the proper operation of the automotive maintenance equipment.

Provisions Relating to Distribution

(h) *Sales by producers only on rated orders.* No producer shall sell, transfer or deliver, on consignment or otherwise, any item on Schedules A, B, C or D, except pursuant to orders bearing preference ratings of AA-5 or higher;

(1) Assigned on Forms WPB-541 (PD-1A), on Form WPB-542 (PD-3A), on Form WPB-547 (PD-1X) or on Canadian Form PB-1010.

(2) Assigned on export licenses or requisitions approved by Foreign Economic Administration.

(3) Assigned pursuant to application on Form CMP-4B, on CMP-4A, on Canadian Forms PB-1005, on PB-1006, or on PB-1007 and used only for the procurement of items on Schedules A, B, C or D to be physically incorporated in other end-products. The use of preference ratings assigned on these forms is prohibited for the procurement of any items on Schedules A, B, C or D for resale as such.

(1) [Deleted Jan. 2, 1945.]

NOTE: Paragraphs (j) to (o) inclusive renumbered (1) to (n) inclusive, Jan. 2, 1945.

Miscellaneous Provisions

(j) *Quarterly reports by producers on Form WPB-3614.* Each producer of automotive maintenance equipment shall execute and file with the Automotive Division of the War Production Board within fifteen days after the close of each calendar quarter a report, (on Form WPB-3614) of the number of units of each item listed in Schedules A, B, C or D produced by him in such calendar quarter. The reporting provision of this order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(k) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture any automotive maintenance equipment or repair parts which he is not per-

mitted to make under paragraphs (d) or (e), or who wants to make more automotive maintenance equipment or repair parts than permitted under those paragraphs, may apply for permission to do so as explained in Priorities Regulation 25. He may still, of course, apply for a special quota on Schedule D items as explained in paragraph (d) (4) (i). All provisions of this order except paragraphs (d) and (e) apply to production authorized under Priorities Regulation 25.

(2) *Appeals.* Any appeal from the provisions of this order other than the restrictions of paragraphs (d) and (e) may be made by filing Form WPB-1477 in triplicate with the field office of the War Production Board for the district in which is located the plant or branch to which the appeal relates. No appeal should be filed from the restrictions of paragraphs (d) or (e).

(l) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

 Schedule 83]

SODIUM PHOSPHATES

§ 3293.1082 *Schedule 82 to General Allocation Order M-300—(a) Definition.* "Sodium phosphate" means the following:

Di sodium phosphate, anhydrous.
 Tri sodium phosphate, crystalline (12 H₂O)
 Tetra sodium pyro phosphate, anhydrous.

(b) *General provisions.* Sodium phosphates are subject to the provisions of General Allocation Order M-300 as Appendix B materials. The initial allocation date is July 1, 1943, when sodium phosphates first became subject to allocation under Order M-334 (revoked). The small order exemption without use certificate is 2000 lbs. of each sodium phosphate per person per bi-monthly allocation period. The allocation periods are bi-monthly, as follows:

- (1) January-February.
- (2) March-April.
- (3) May-June.
- (4) July-August.
- (5) September-October.
- (6) November-December.

(c) *Transition from M-334.* Regular and interim allocations heretofore issued under Order M-334 are effective under this schedule, but authorizations to deliver are limited in duration as if originally issued under this schedule. Pending applications need not be refilled.

(d) *Suppliers' applications on WPB-2947.* Each supplier seeking authorization to use or deliver shall file application on Form WPB-2947 (formerly PD-602). Filing date is the 15th day of the month before the proposed delivery period. File separate sets of forms for each sodium phosphate. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-82. The unit of measure is pounds. In Table I, first, list in Column 1 the names of customers ordering more than 20,000 lbs. for delivery during the next allocation period in the case of di sodium phosphate or tetra sodium pyro phosphate, or 80,000 lbs. in the case of tri sodium phosphate, and specify the end use in Column 1a as stated in the customers' certificates; second, specify in Column 1 "2000-20,000 lb. orders" (or "2000-80,000 lb. orders" in the case of tri sodium phosphate) without mentioning individual customers' names, in Column 1a group the end uses stated in the customers' certificates and in Column 4 specify the quantity ordered for each use grouping; third, an aggregate quantity may be requested, without specifying customers' names or proposed uses, for delivery on orders for 2000 lbs. or less during the next allocation period. Suppliers seeking to use their own stock shall file as if they were

customers placing orders on themselves. In table II producers shall fill in Column 8 through 16 and distributors only Columns 8, 10, 12 and 13.

(e) *Certified statements of use.* Each person placing orders for delivery of more than 2,000 lbs. of any sodium phosphate in the aggregate from all suppliers in any allocation period, shall furnish each supplier with a certified statement of proposed use, in the form prescribed in Appendix D of Order M-300. Proposed use may be specified as follows:

Boiler water treatment (including industrial water conditioning).
 Foods and drugs.
 Military equipment and supply.
 Direct sale to Government (specify Army, Navy, etc.).

 Other use (specify).

Proposed use may also be specified as "for resale on further authorization" "for exempt resale" or "for export" (specify destination and export license number).

(f) *Special exemption for distributors.* A distributor who orders not more than 20,000 lbs. of di sodium phosphate, 20,000 lbs. of tetra sodium pyro phosphate, and 80,000 lbs. of tri sodium phosphate, for delivery from all sources during any allocation period, may redeliver the quantity ordered (to the extent that his orders are filled) without restriction under this schedule. When placing purchase orders for sodium phosphate to be redelivered under this exemption the distributor shall specify in his purchase order certification "exempt resale"

(g) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Communications to War Production Board.* Reports and communications concerning this schedule shall be addressed to War Production Board Chemicals Bureau, Washington 25, D. C., Ref: M-300-82.

(2) *Tank cars constructively placed (but not actually placed) and held for unloading or any other purpose.* Except as otherwise herein provided, after the expiration of twenty-four (24) hours free time (not excluding Sundays or legal National, State or Municipal holidays) after constructive placement of a loaded tank car the demurrage charges on such tank car held for unloading or any other purpose on any track which has not been actually placed for unloading or otherwise disposed of shall be \$5.50 per car per day or a fraction thereof for the first demurrage day; \$11 per car per day or a fraction thereof for the second demurrage day; and \$22 per car per day or a fraction thereof for each succeeding demurrage day; *Provided, however,* That on any such tank car actually placed and unloaded the total free time allowed under this subparagraph and paragraph (c) (1) shall not exceed a total of twenty-four (24) hours free time, except that the actual time consumed in moving such car from the point of constructive placement to the point of actual placement shall not be computed against such car.

(3) *Tank cars actually placed and held for loading or any other purpose.* Except as otherwise herein provided, after the expiration of twenty-four (24) hours free time (not excluding Sundays or legal National, State or Municipal holidays) after actual placement of an empty tank car the demurrage charges on such tank car held for loading or any other purpose on any track which is not loaded or otherwise disposed of within such free time shall be \$5.50 per car per day or a fraction thereof for the first demurrage day; \$11 per car per day or a fraction thereof for the second demurrage day; and \$22 per car per day or a fraction thereof for each succeeding demurrage day.

(5) *Notice.* The agent of the railroad shall promptly notify consignee of the arrival of each empty tank car in the same manner and to the same extent as provided in tariff on a loaded car after which the empty tank car shall be considered as constructively placed as of, time specified for a loaded car in applicable tariffs, of the day following notice in any case where such empty tank car has not been actually placed for loading.

(6) *Storage charges.* The provisions of this order shall not be construed to affect the provisions or charges for storage of explosives or other dangerous articles in tank cars in section No. 2 of Agent B. T. Jones' Tariff I. C. C. No. 3815 supplements thereto or reissues thereof, or similar provisions in other tariffs supplements thereto or reissues thereof.

(10) *Bad order tank cars.* When the physical condition of any empty tank car is determined by proper inspection to require necessary repairs or conversion before such tank car can be utilized for transportation, such car until the necessary repair or conversion has been made, shall thereafter be exempt from the charges provided herein provided the owner, lessee, or person who otherwise controls a bad order tank car shall notify the agent of the railroad in writing within twenty-four (24) hours ensuing the first 7:00 a. m. after the defects are detected giving the car initial and number together with a statement of defects and certifying that such car will require repairs before being utilized for transportation. Immediately upon completion of repairs the agent of the railroad shall be notified in writing to that effect and such car shall thereafter be subject to provisions of this order.
